

CAP - Developing with Spark and Hadoop:

Homework Assignment Guide for Students

Homework: View the Spark Documentation2

Homework: View the Spark Documentation

Files and Data Used in this Homework

Exercise directory: None

In this Exercise you will familiarize yourself with the Spark documentation.

1. Start Firefox in your Virtual Machine and visit the Spark documentation on your local machine, using the provided bookmark or opening the URL
`file:/usr/lib/spark/docs/_site/index.html`
2. From the **Programming Guides** menu, select the **Spark Programming Guide**. Briefly review the guide. You may wish to bookmark the page for later review.
3. From the **API Docs** menu, select either **Scaladoc** or **Python API**, depending on your language preference. Bookmark the API page for use during class. Later exercises will refer you to this documentation.

This is the end of the Homework
